

MEDICARE AND MY CHIROPRACTIC VISITS:

2023 Medicare annual deductible is \$226.00

Your annual deductible must be met before Medicare Part B will cover any services.

- 2023 Medicare Manipulation fee: average is **\$49.60**

*This is the **ONLY** treatment Medicare will cover at 80%. The patient is typically responsible for the remaining 20% as co-insurance.*

- Therapies

*Therapies are treatment other than Spinal Manipulation. These therapies are **NOT** covered by Medicare which is why we offer them at a significant discount.*

- X-Rays: **\$20-25 each**

X-Rays are at Dr. Hershberger's sole discretion depending on symptoms and their severity. Medicare does not cover X-Rays so we offer them at a significant discount as well.

What happens if I have a supplemental insurance plan?

*Our billing specialist at Cimarron Chiropractic will send all claims directly to Medicare. Once Medicare receives, processes and approves your claims they will then submit them to your supplemental (aka secondary) insurance for possible additional coverage. Your supplemental insurance **will not** cover any charge or claim that Medicare does not cover. You must still pay your patient responsibility at check out.*

What are my estimated costs?

First Visit or greater than a year

X-rays: **\$20-25 each**

Deductible not met

Manipulation: **\$25.00**

Therapies: **\$15.00 each**

Estimate: \$ 55.00 - 265.00

This is an estimate that includes up to 9 X-Rays taken just to give you an accurate estimate. Average is 2-4.

Deductible met

Manipulation: **\$25.00**

This is billed to Medicare every appointment and does not necessarily mean you will owe this.

Therapies: **\$15.00 each**

Estimate: \$15.00 - 60.00
